

Key Features

- High quality OFC conductor
- Fully Shielded cable
- Solid Gold plated contacts
- TPE Outer sheath
- Plastic Free Packaging
- 5 Year Warranty

Overview

The aura range of 3.5mm Audio cables are a high quality fully shielded OFC copper cable product. These Premium 3.5mm Jack Audio cables are made using 28 AWG copper conductors with matching shielding ensuring good conductor abilities and very good protection against outside interference. Connectors are robustly terminated onto the cable with gold plated contacts minimising degradation in connection contacts. Insulation of the cables is a TPE outer sheath providing greater flexibility.

Product Specifications

Feature	Values
Type of connector connection 1	3.5 mm stereo jack
Connection type connection 1	Plug (Male)
Type of connector connection 2	3.5 mm stereo jack
Connection type connection 2	Plug (Male)
Length	10 m

Additional specifications

Features	Values
Inner Conductor AWG	28
Insulation Type	PVC
Outer Conductor Type	OFC Copper 31 x 0.10mm
Outer Sheath Material	TPE
Outer Sheath Diameter	4.0mm
