

Key Features

- Supports 1080p up to 120m from switch
- PoE supported or optional 12v DC
- HDMI local loop out on Tx
- Bi-directional IR & RS232 Control
- Use with IP streaming management software
- Requires an unmanaged POE Gigabit network switch

Overview

This IP Streaming Encoder (Tx) uses the Audio video coding standard H.264 to extend HDMI video, IR and RS232 control signals over a dedicated IP network. It works with one control PC (Wake on LAN) and one switch whose transmission rate is 100Mbps or higher to control a variety of functions via the IP Streaming Management software.
